PROJECT DESCRIPTION

The project involves on-going training of California Department of Forestry and Fire Protection (CAL FIRE) personnel in the proper procedures of firing techniques, mobile attack and hand tool usage to control wild land fires. The project area is 60 acres of grassland within the property of Robert Murphy. The project area is entirely within State Responsibility Area. CAL FIRE Type 3 engines, bulldozer, hand crew and a fire suppression helicopter will be used for the training burn and will be present for all burning activities.

The proposed 60 acres is entirely grassland and surrounded by existing roads and dozer line. There are no threatened and endangered plant or animal habitat in the project area. No archaeological resources have been identified within the project area. All applicable burn permits issued by the Yolo Air Quality Management District will be obtained prior to commencement of the project. Due to the ongoing nature of the project the Department will reassess the environmental conditions of the project five (5) years from September 1, 2012.
